★★★★★ **Great little guide**, December 17, 2005

Reviewer: [CJ](#) (Seattle, WA USA) - [See all my reviews](#)

One of the definitive texts on "what antibiotic do I use as first line, or second line, or...". takes a little while to get the organization of the text (I got an entire 2 hour class on how to use it in school, which was nice). Be warned, certain resistances (MRSA, for instance) are outpacing annual editions of books. Recommended!

Book Description

New this year is an "Herbal & Alternative Therapies" section. The Tarascon Pocket Pharmacopoeia continues to be the most popular and most trusted portable drug dosing reference available! Newly updated for 2003 (our 17th year), the Tarascon Pocket Pharmacopoeia continues the high-quality tradition of a convenient, organized, and concise pocket manual packed with vital drug information meticulously peer-reviewed by experts and clinicians of multiple specialties. It details typical drug dosing (both FDA approved and off-label uses), available trade and generic formulations, metabolism, safety in pregnancy and lactation, relative drug pricing information, and Canadian trade names. Multiple invaluable tables supplement the drug content, including opioid equivalency, emergency drug infusions, cardiac dysrhythmia protocols, pediatric drug dosing, and much more.
